Once the class is completed online through CVA or GAVS, the grade is sent to Walton and posted to their transcript in late July.

Students who want to get ahead in their academic curriculum over the summer will also have to complete an online form for Walton stating their intent for the summer class and what class they want to be placed in next year once we received their passing summer grade. Your school counselor will only approve you for CVA or GAVS classes if you have completed the online form.
